Technology.Tourism.Landscape: Spring Meeting: Start of National Austrian KLI.EN SNOW Project and Panel Discussion on Interaction "Snow Quality and Sustainable Snow Production"

Thursday, April 7th, 2011, 17:00 to 19:30,
 Room 32, Operngasse 11/4, A-1140 Wien

Final PROGRAM, 2010

17:00	Registration & Welcome & Coffee & Smalltalk
17:30	The "SNOW" Project [successful project of the KLI.EN 2010 call], Introduction to the aims and contents of the project (Michael Bacher, BOKU Wien)
17:50	Theoretical considerations to achieve a better snow quality in manmade snow production (Sergey Sokratov, Moscow State University)
18:05	Practical considerations to achieve a better snow quality in manmade snow production (Fred Best, Energy International Systems Ltd)
18:20	Outreach activities and partnerships of the "SNOW" project. (Meinhard Breiling, TU Wien)
18:35	What outputs can be expected from the SNOW projects and will it contribute to change the way of current snow making? (Michael Bacher, BOKU Wien)
18:45	How does a better snow quality relate to a more sustainable way of snow production. General discussion based on inputs of the SNOW project and on the "Declaration of a more sustainable snow production" (http://ttl.tuwien.ac.at/docs/declaration-sustainable-snow-production.pdf) Proposal: Avoid "sustainable" and change it to "resource concerned" (Moderation M. Breiling, TTL)
19:00	Small buffet for our guests, continuation of discussion at individual level

With nice regards,
